

DOORSMART LTD

COMPOSITE DOOR MANUFACTURERS

OPEN UP WITH STYLE

welcome to DOORSMART LTD

At Doorsmart we utilise the latest advances in composite door technology to offer our customers the very best in design and quality.

The GRP fibreglass door leaf is crack resistant, has a high dent resistance and will not warp, twist or bow.

Colour is introduced into the fibreglass during manufacture, making a unique through colour facing which requires little maintenance and is highly durable - truly a door for the future.

With a choice of 7 colours and 22 styles, we offer an outstanding range.

A selection of glazing options are shown but many more are available to view on our website: www.doorsmart.co.uk Every effort will be made to accommodate special requirements.

Take a look at the choice of top quality door furniture and locks, adding elegance with a high level of security.

Our policy is to manufacture a composite door of the highest specification and quality and to provide a personal service to meet the needs of our customers.

At Doorsmart we deliver all of our own products direct to your chosen destination offering that personal touch.

Doorsmart...
The smart
choice
for any
home.

door construction

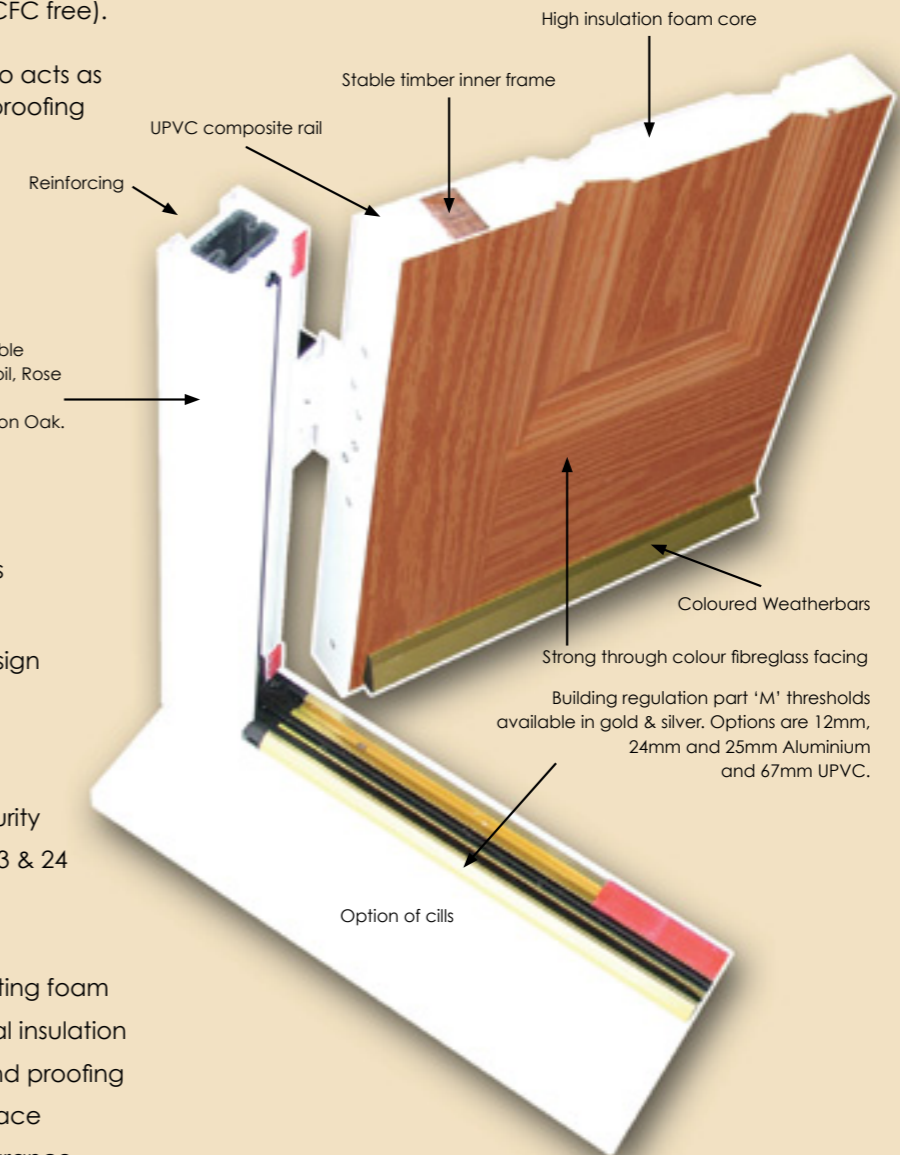

The doors are constructed by bonding high impact fibreglass outer skins to composite rails surrounding an inner core of very high thermally efficient insulating foam (CFC free).

The inner core also acts as a superior soundproofing agent.

Outer frames are available in 70mm (White, White Foil, Rose on White, Rose on Rose, Oak on White and Oak on Oak).

GRP door leaf tested to the highest standards of performance.

- ⊕ Secured by Design

Every Doorsmart door is individually made to measure to ensure a perfect fit. Our product range includes the most popular door designs in both solid or glazed versions.

All doors featured in this brochure have been manufactured by Doorsmart.

The beauty of traditional timber appearance with low maintenance technology.

newark and tutbury

At Doorsmart we marry the classic appearance of timber doors with the high performance of modern technology.

Construction methods ensure that they will never rot, warp, or swell and will keep their good looks with just an occasional wipe over.

All our doors have superior thermal insulation levels compared to wooden doors which means they conserve heat and energy. The inner core also acts as a soundproofing agent.

Strong, durable and designed to add elegance to your home with a high level of security.

hopton

Every Doorsmart door is individually made to measure with a choice of charming styles to suit every taste.

Stunning panelled doors keep out the very worst of the British weather.

dudley and chartley

The Dudley and Chartley styles are a popular choice, allowing rays of light into your hallway.

The Dudley offers more privacy for those requiring less light and glass.

There are plenty of options to make the Dudley or Chartley your unique entrance.

Secure, tasteful and virtually maintenance free, an elegant choice.

helmsley and beeston

Choose your door style, your colour, your glass and furniture to create your very own personal entrance.

Protecting your home from intruders is a priority for any home owner. The Doorsmart range has been designed to ensure your home remains safe.

The Helmsley is a stylish option which offers maximum light into your home.

Manufacturing to a consistently high standard Doorsmart provides a door that is easy to install and has an excellent service life.

Manufactured to the highest standard.

kenilworth

Our best seller the Kenilworth, is the perfect entrance door, allowing sunlight to shine through into your home, reflecting your chosen glass design.

Inspiring new ideas.

Doorsmart Sash Doorlites - The Doorsmart Sash Doorlite is a revolutionary design that can be incorporated into our Helmsley door design.

Ideal for use in back doors situated in kitchens where extra ventilation is needed. The doorlite also comes with an integral black fly screen, to keep those summer bugs away.

A Georgian bar effect has been encapsulated between the panes of glass. Simple controls ensure easy operation.

Doorsmart Blind Doorlites

The Venetian blind is encapsulated between the glass to provide a zero maintenance blind that needs no cleaning. The blind can be raised, tilted and lowered using unobtrusive fingertip controls.

Stable doors.

chirk

The Chirk stable door is an elegant choice developed using the most secure lock and roller latch system on the market today. A rack bolt joins the two halves together and are sealed using rebated centre door seals.

French doors.

pembroke

The Pembroke french door range offers an alternative to properties requiring larger entries. As standard the three point locking mechanism has achieved PAS023/024 and Secured by Design approval. Doorsmart is at the forefront of composite french door technology.

Endless choice.
